# Disclaimer

This document, together with any oral briefing which accompanies it, (the "Presentation") is being issued solely by Pantheon Resources Plc (the "Company").

The Presentation is being supplied solely for information purposes. The Presentation does not constitute or form part of, and should not be construed as, any offer or invitation to sell or issue, or any solicitation of any offer to purchase, subscribe for or otherwise acquire any securities of the Company or any of the business or assets described herein, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contractual commitment or investment decision relating to the securities of the Company, nor does it constitute a recommendation or inducement to enter into any contract or commitment regarding the securities of the Company. In particular, the Presentation and the information contained in the Presentation do not constitute an offer of securities for sale in the United States.

Certain statements, beliefs and opinions in the Presentation are forward-looking, which reflect the Company's or, as appropriate, the Company's directors' current expectations and projections about future events. By their nature, forward-looking statements involve a number of risks, uncertainties and assumptions that could cause actual results or events to differ materially from those expressed or implied by the forward-looking statements. These risks, uncertainties and assumptions could adversely affect the outcome and financial effects of the plans and events described herein. Forward-looking statements contained in the Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. The Company does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. You should not place undue reliance on forward-looking statements, which speak only as of the date of the Presentation.

Nothing in this document or in the documents referred to in it should be considered as a profit forecast. Past performance of the Company or its shares cannot be relied on as a guide to future performance.

Cautionary Statement: The estimated quantities of petroleum that may be potentially recovered by the application of a future development project relate to undiscovered accumulations. These estimates have both an associated risk of discovery, appraisal and development. Further exploration, appraisal and evaluation are required to determine the existence of a significant quantity of potentially movable hydrocarbons. The estimates contained within this presentation are only estimates and there can be no guarantees that these estimates will be realized.

The information in the Presentation has been provided by the Company or obtained from publicly available sources and has not been independently verified. No liability whatsoever (whether in negligence or otherwise) arising directly or indirectly from the use of this Presentation or its contents is accepted for, and no representation or warranty, express or implied, is or will be made or given by or on behalf of, and no responsibility or liability is or will be accepted by, the Company or by any of its directors, officers, advisers, agents or affiliates or by any other person as to or in relation to, and no reliance should be placed for any purposes on, the accuracy, completeness or fairness of the Presentation or the information or opinions contained herein or supplied herewith or any other written or oral information made available to any party or for any errors, omissions or mis-statements, negligent or otherwise, or for any loss howsoever arising, directly or indirectly, from any use of such information or opinions or otherwise, or for any other communication, written or otherwise, made to anyone in, or supplied with, the Presentation. In particular, no representation or warranty is given as to the achievement or reasonableness of any mineral resource, future projections, management estimates, prospects or returns.

Accordingly, neither the Company nor any of its shareholders, directors, advisers, agents or affiliates shall be liable for any direct, indirect or consequential loss or damage suffered by any person as a result of relying on any statement or omission in, or supplied with, the Presentation or in any future communications that are issued by the Company.

The Presentation has been delivered for information only and upon the express understanding that such information is of a general nature and does not relate to any specific transaction. The Presentation is subject to updating, revision and amendment. The information and opinions contained herein are provided as at the date of this Presentation and are subject to change without notice. The Company undertakes no obligation to provide the recipient with access to any additional information or to correct any inaccuracies or omissions which may become apparent.

Neither the Presentation nor any oral presentation of the Presentation constitute an offer of securities for sale in the United States of America, its territories or possessions. Any securities mentioned herein have not been and will not be registered under the US Securities Act of 1933 (the "Securities Act"), as amended and may not be offered or sold in the United States, except in reliance on an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

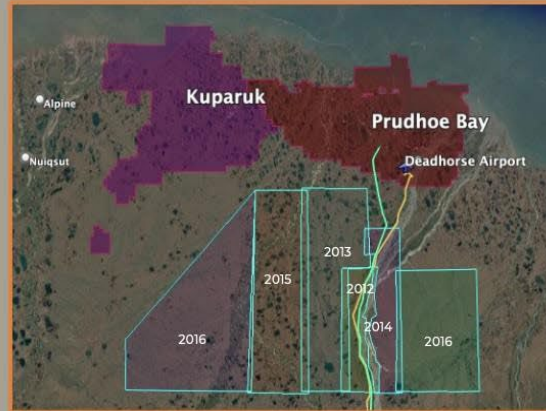

By attending the presentation to which this document relates or by accepting this document in any other way you agree to be bound by the foregoing provisions.

# Great Bear Pantheon's Investment in Alaska

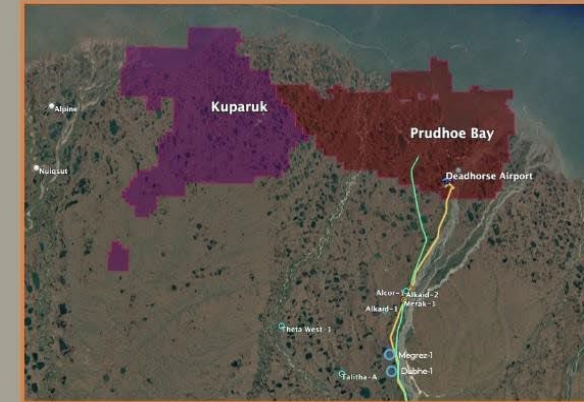

## 16 Years of Expenditure and Discovery

258,000+ Acres Currently Under Lease

1,000 Sq Miles of 3D Seismic Shot

8 Wells Drilled

## Hundreds of Millions Spent to Date on Exploration and Appraisal in Alaska

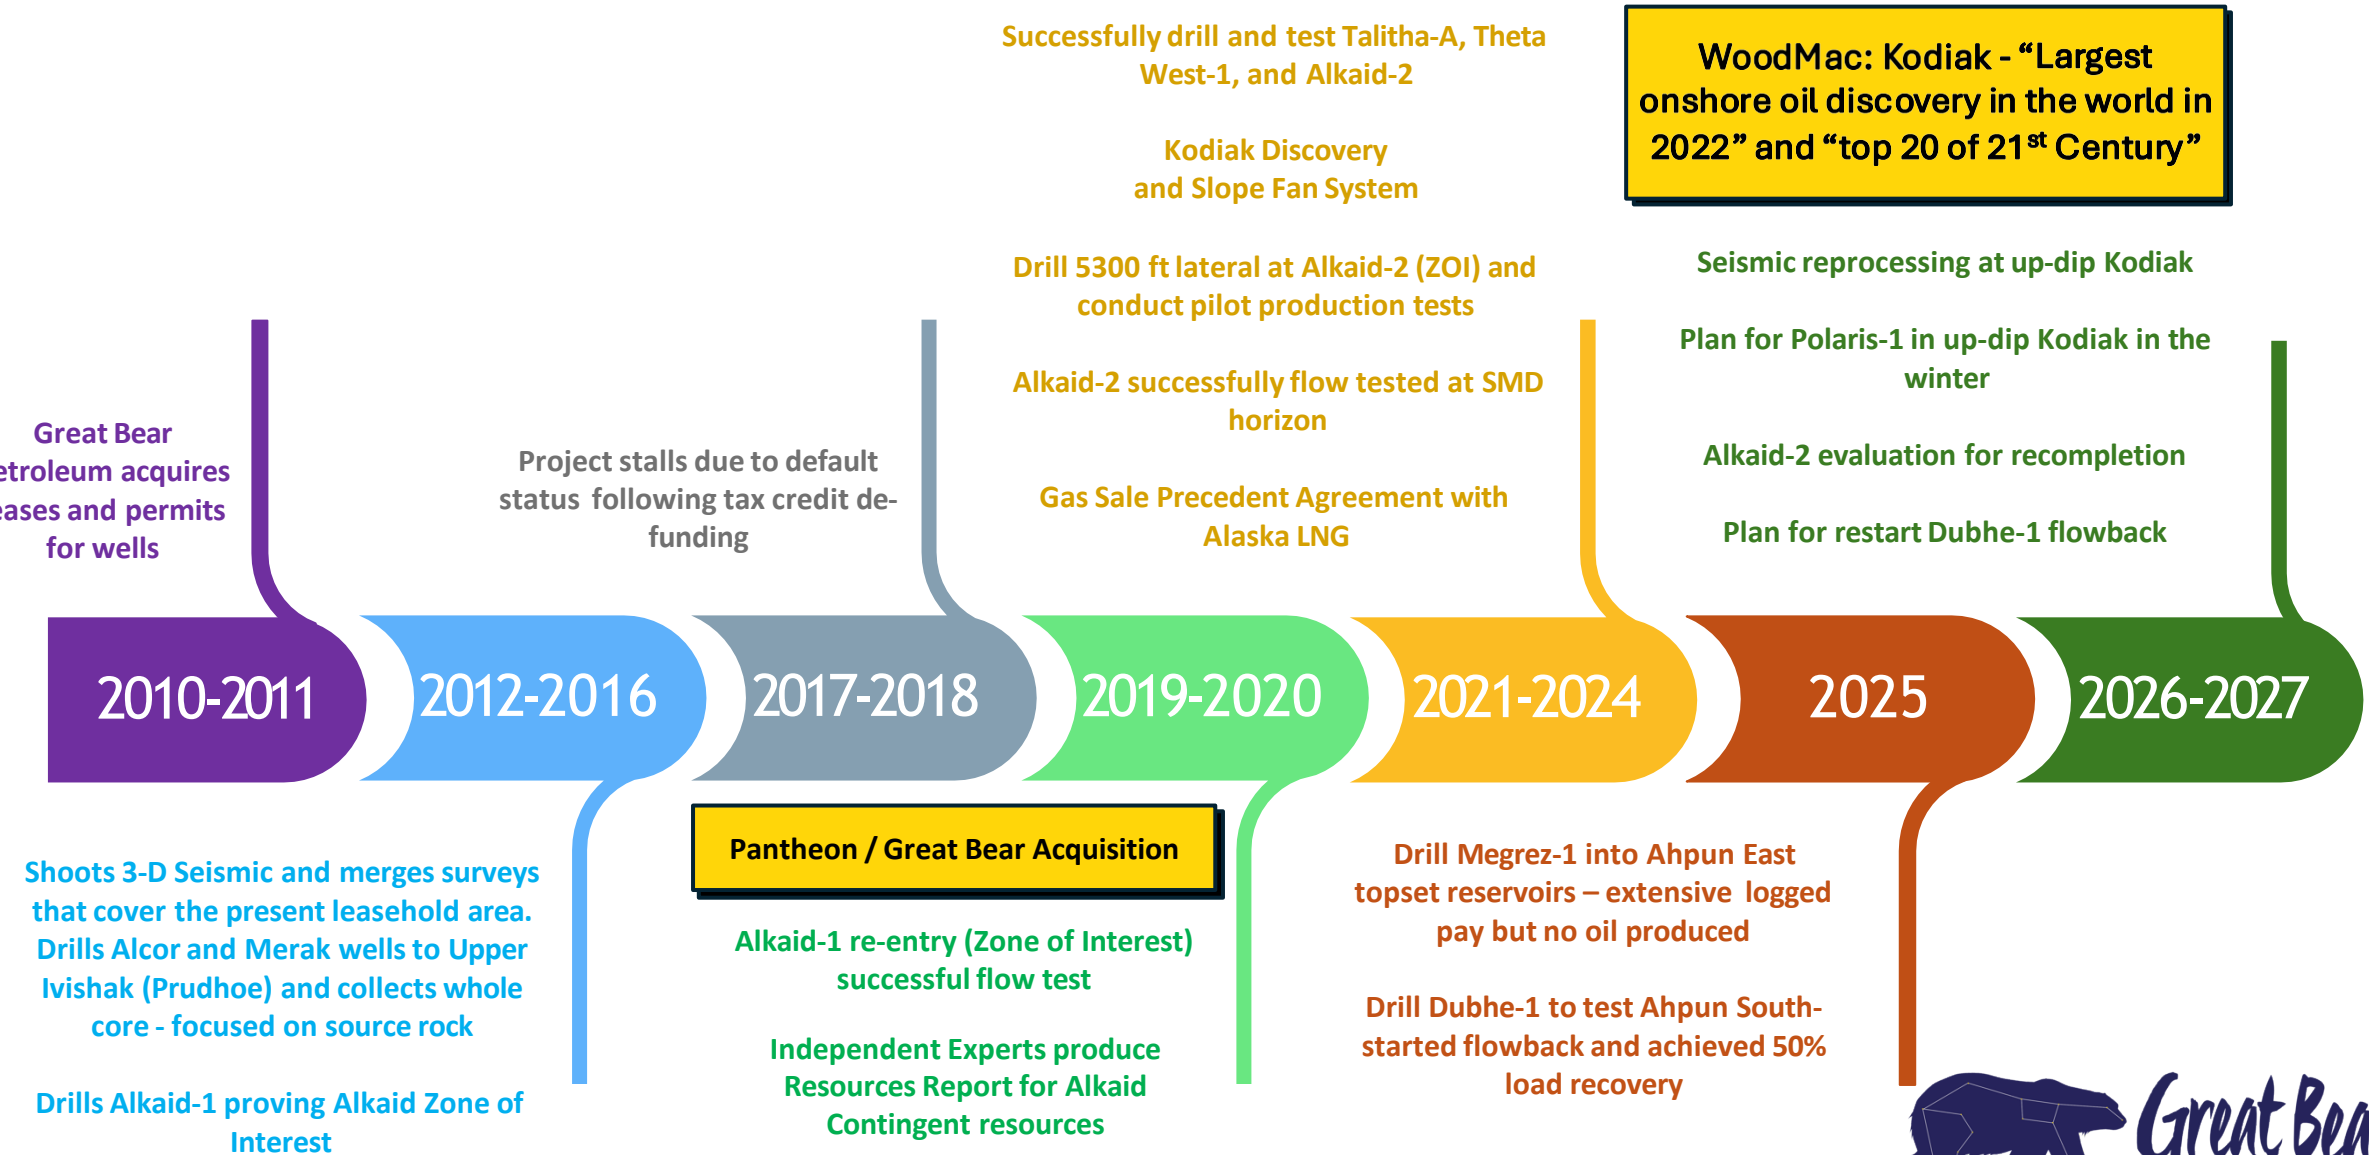

- Diligent history of exploration and appraisal activity in Alaska
- Adjacent to primary infrastructure (TAPS, Dalton Hwy, Alaska Gas Pipeline)
- GSPA in place with 8 Star Alaska in service of Phase 1 Alaska LNG project
- Ryder Scott Assessed Resources - confirmed there is more than enough producible gas for in-state needs\*

\*Source - AGDC Testimony, Alaska Senate Finance, February 25, 2025

# Company History and Exploration Timeline

## 16 Years of Alaska Investment

# Company and Project Highlights

(1) For locations adjacent to highway; Kodiak is restricted to winter activity  
(2) Precedent agreement, thus subject to execution of binding Gas Sales Agreement. Refer RNS 5 June 2024  
(3) Company Estimate  
(4) Contingent Gas resources converted to boe at c mcf:1 boe

# Experienced Leadership Team

Established capability for developing assets on the ANS

## Max Easley

Chief Executive Officer & Director

Native born Alaskan and graduate of UAF. Petroleum Engineer, 30+ years' experience, balanced between North America and international, including extensive experience operating in Alaska. Previous executive roles include BP, Apache Corp. and PETRONAS. Over past decade has been focused on unconventional development in US and Canada.

## Patrick Galvin

Chief Commercial Officer / General Counsel

Previously Alaska State Commissioner of Revenue, Former Petroleum Land Manager for the Alaska Dept of Natural Resources. Former partner at K&L Gates.

## Tralisa Maraj

Chief Financial Officer

25+ years' experience in finance operations and control. Previous CFO at CGX Energy and most recently CFO of US-listed LiveWire Group Inc. Chartered accountant and licensed CPA in Texas.

## Vance Hazzard

SVP Operations

Petroleum Engineer, 30 years' experience in drilling and completions and production operations in Alaska and L48 unconventional assets. Previous roles include Arco Alaska, Pioneer, Olympus and most recently head of drilling and completions for Santos Alaska.

## Erich Krumanocker

Chief Development Officer

30 years' experience in development and production delivery. Experience as Petroleum Engineer with BP plc on the ANS, as well as in the North Sea, Azerbaijan and the U.S. Most recently at Microsoft, as a Partner leading digital transformation across the manufacturing and energy sectors.

## Tony Beilman

SVP Engineering

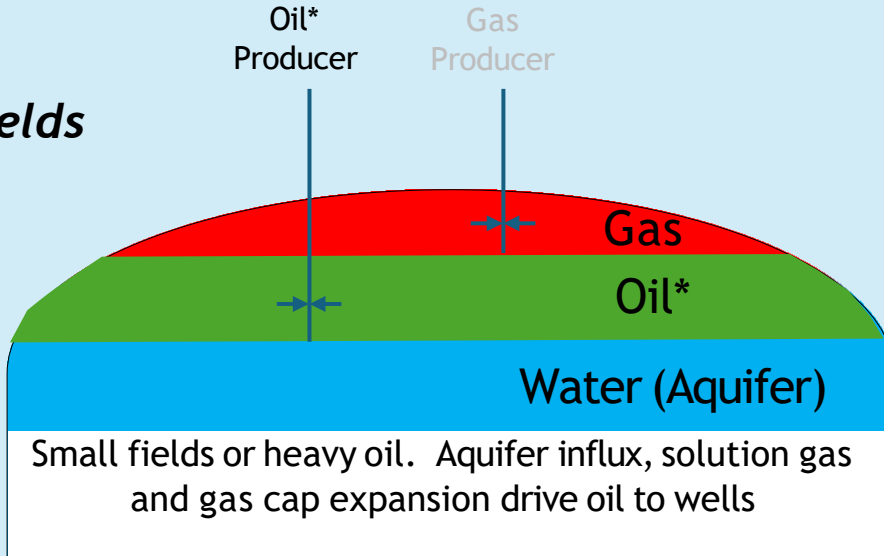

Petroleum Engineer, 40+ years' management, operations, drilling reservoir, A&D experience, for: Phillips Petroleum, David Arrington Oil & Gas, Cairn Energy. Cofounded (as COO) two PE-backed unconventional shale companies (Foreland Operating & Novus Exploration), focusing on Marcellus Shale, Eagle Ford & Permian Basin.

# Why Pantheon's Reservoirs are Different

## Primary Recovery

*Small Fields*

## Secondary / Tertiary Recovery

*Prudhoe Bay  
Kuparuk  
Pikka*

## Tight Oil - Primary Recovery

*Great Bear Pantheon  
Montney - Canada LNG  
Permian - Gulf Coast LNG*

\* NOTE: Associated gas is evolved from all produced oil. The gas to oil ratio (GOR) varies greatly between reservoirs depending on type of crude oil.

|                     | Oil Gravity | GOR (scf per STB) |
|---------------------|-------------|-------------------|
| Prudhoe Bay         | 28          | ~800              |
| Kuparuk             | 25          | ~500              |
| Great Bear Pantheon | 40          | 1500-5000         |

# Why Pantheon's Gas is Important

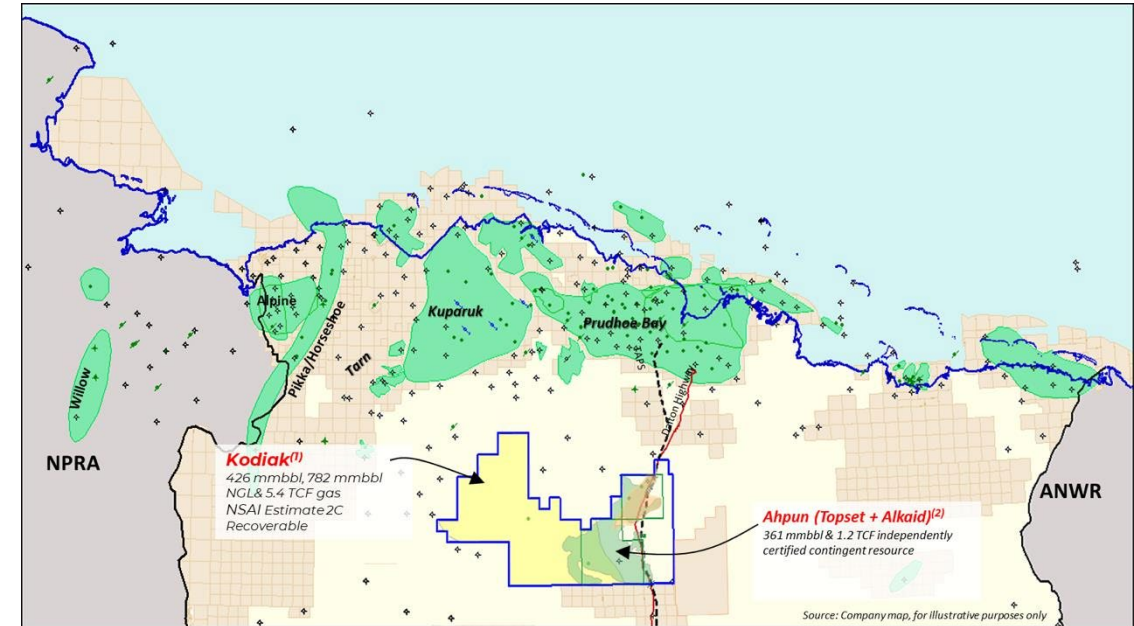

Win-win arrangement: cheaper, low CO<sub>2</sub> gas for Alaska and reduced gas injection costs

## Key Terms of Gas Sales Precedent Agreement

- June 2024, GBP LLC and 8 Star Alaska LLC
- 500 Mscfd for 20 year term
- Base Case price \$1.00 per mmbtu

## Further price reduction options

- Helium infrastructure
- Loan Guarantees
- Price floor equals aggregate royalty and production tax payments

|                     | CO <sub>2</sub> Content* |
|---------------------|--------------------------|
| Prudhoe Bay         | ~13%                     |
| Pt Thompson         | ~4%                      |
| Great Bear Pantheon | <1%                      |
